

THE DUES

,Time Machine'

Release: October 18, 2017

The Dues is a heavy bluesrock-trio from Winterthur Switzerland, formed in 2012.

Sounding like the bastard child of all the well known power trios from the 60's and 70's!

With the rawness of their riffs and the kicking grooves, **The Dues** are seen as an exciting live band you shouldn't miss! While sharing the stage with some of their idols like Radio Moscow, Earthless, Joy and Dollhouse, they released their debut album *Thief Of Time* in 2016. Without a break, their second album ',Time Machine'' is all ready to be set free on this world soon!

The new album ',Time Machine''

After a lot of recording in small and big studios, **The Dues** tried to do their own thing.

With minimal resources, they've built their own little studio in their rehearsal room.

Bass player Stefan Huber took the role of the sound engineer. Now they had the possibility to work on the songs without any pressure of time. The result was a 12 track album, which got mixed in the DALA Studios in Winterthur by David Langhard (Admiral James T, Howlong Wolf). With a lot of analogue effects and some background organs, he gave the album the last refining touch.
