Papir VI

Psychobabble 107 / LP+download/CD

On their 6th LP, Papir blend the lush atmosphere perfected on their previous album 'V' with the guitar-driven sound of their early output. The result is a concise, yet compelling record of unique, blissful psych-krautrock.

Papir, a trio from Copenhagen, might be the ultimate expression of the Danish creative soul: distinctively modern, deceptively minimalistic, and stylish yet understated. A band of virtuoso musicians who move between psychedelic rock, jazz and krautrock seamlessly with the ability to hypnotize audiences, Papir could easily be the showboats of the scene. However, since the appearance of their self-titled record in 2010, Papir have continued to follow their own road map, creating music with little interest in playing to the masses or catering to a specific genre.

While the band's output over the past ten years has varied from epic psychedelic guitar meltdowns à la Earthless to sweeping, reverb-drenched soundscapes, a core of dense rhythm and melody always holds it all together. On *VI*, Papir show a mastery of all their faces, combining the guitar heroics of their first few records with the more lush sound of last year's *V*. In a mere 4 songs, Papir once again refresh tired ears with their unmistakable approach to rock music, leaving the listener blissed rather than bludgeoned.

Available on 180gr. clear vinyl including download and on CD.
