*Off Pressure* – VÖ: 31.01.2020

Label: Zorch Productions

Distribution: Border Music

So you think you can dance? No? Bottlecap don't make judgement about moving to music due to beer infusion and noise explosion. If you like a wild show, you will love them. If you like rock'n'roll you will love them. If you like the feeling of not knowing what will happen, well yes, then you will definitely love them. This is a band just writing great songs and doing furious live performances, they don't even know themselves what will happen.

The new album OFF PRESSURE is a screaming and liberating punk rock record that makes you want to drop whatever it is you're doing for the sake of moving your feet. Ain't nothing bad about that! The trio from Gothenburg loves being loud, fast and filled up with energy to the rim. Straight ahead. And in the kisser, so to speak. The perfect address for everyone devoted to furious shows and liberating punk rock. Straight to the soul.

Knowing how to move has taken this band to do over 500 shows all over Europe. In May 2017 the band broke the European border and toured Australia, playing CherryRock Festival on AC/DC Lane in Melbourne, with more. 2019 saw the band tour Mexico and the release of a new album. Punk rock never dies, as long as you turn it to 11.

## **New album – OFF PRESSURE**

The album was recorded in Welfare Sounds Studio in Gothenburg, Sweden by Per Stålberg (Division Of Laura Lee, Pablo Matisse), Daniel Johansson and Olle Björk. Released on Zorch Productions and distributed by Border Music.
